

DXone ERP and Logicblock Inc. Announce Strategic Partnership to Deliver Strong eCommerce Solution

Scottsdale, Arizona, February 8, 2026; DXone ERP (DXone), an OEM provider of Acumatica for the imaging channel, and Logicblock announced a strategic partnership to deliver an integrated eCommerce and ERP solution for imaging and office supply dealers.

With this partnership, Logicblock and DXone will provide a next-generation, turnkey eCommerce solution that enables dealers to offer a streamlined online buying experience. For dealers already selling online, the integrated approach reduces the need for multiple systems by connecting the storefront directly to DXone, creating a single, connected workflow from order to back-office processing.

“Our goal with this partnership is simple; deliver a modern eCommerce experience that connects seamlessly to a leading ERP for imaging dealers,” said Alexander Nicolaides, CEO of Logicblock. “We’re excited to bring a turnkey platform that unifies office equipment and office supplies, helping dealers sell smarter and operate more efficiently.”

“We are grateful for the opportunity to partner with Logicblock,” said Alex Cribby, CEO of DXone. “Bringing ERP and eCommerce together in a seamless way takes close collaboration, and Logicblock has been an exceptional partner. Together, we’re delivering an integrated solution our dealers have been asking for.”

About Logicblock

Logicblock provides a full-featured eCommerce platform built for B2B and B2C sellers, with mobile-first, SEO-optimizable storefronts, vendor integrations, and concierge support. Through flexible APIs and real-time data syncing, Logicblock helps retailers connect their online storefront to core business systems, including ERPs, distributors, and shipping partners, so teams can scale smarter, reduce manual work, and improve customer experience. Logicblock offers a full-access, 30-day test drive.
