

FOR IMMEDIATE RELEASE

MPSA Announces Conclusion of Annual Leadership Awards and Launch of the MPSA Leadership Circle

February 8, 2026 — The Managed Print Services Association (MPSA) today announced the conclusion of its long-standing **Annual Leadership Awards**, marking the end of an era and the beginning of a new, more dynamic recognition program: the **MPSA Leadership Circle**.

The MPSA Leadership Circle is designed to recognize **dealer and vendor members** who demonstrate **outstanding participation, engagement, and contribution** to both the association and the broader Managed Print Services (MPS) market. Unlike the annual awards program, Leadership Circle honorees will be recognized **monthly throughout the year**, creating consistent visibility for organizations that actively support MPSA initiatives, marketing programs, education, and community leadership.

This shift reflects the evolving nature of the MPS industry and the MPSA's commitment to highlighting sustained involvement and real-time impact across the channel.

*"The MPS market is driven by organizations that consistently show up, contribute ideas, support peers, and move the industry forward," said **Eric Crump, President of the MPSA, Director of the FollowMe Print team at Ringdale**. "The Leadership Circle allows us to recognize successful market players not just once a year, but continuously."*

The MPSA Leadership Circle will feature both **dealers and vendors**, ensuring broad representation across the MPS landscape. Monthly recognition will be shared through MPSA marketing channels, reinforcing the association's mission to elevate best practices, collaboration, and excellence in Managed Print Services.
